What were the best things about this course?

Comments
The project was so practical.
Passionate about the course. He knows absolutely everything.
Gernot encourages critical thinking. His teaching is very clear and state-of-the-art.
Content and clarity of explanation.
I really like how Gernot includes historical perspective (i.e. talks about older systems and how the evolved into the current state of the art).

What could be improved?

Canceling Trimester ;-)
Maybe add more essay evaluation during the course.
Nothing I can think of.
